ANALYSIS: (Attach a separate page if necessary)

The proposed legislation will require the Department of Health and Social Services to prepare an economic effect statement and regulatory flexibility analysis documenting the impact of some regulations on small business in Alaska.

Department regulatory projects can generally be described as falling into 4 classifications:

1. Regulations necessary to implement new legislation;
(cont. on page 2)

Prepared by: Sherry Hill, Special Assistant
Division Office of the Commissioner
Approved by: Joel S. Gilbertson, Commissioner
Agency Department of Health and Social Services

STATE OF ALASKA
2005 LEGISLATIVE SESSION

ANALYSIS CONTINUATION

(cont. from page 1)

2. Regulations to implement cost containment strategies necessary to live within the budget appropriated by the legislature;
3. Regulations necessary to protect the public health and safety of Alaskans; and
4. Regulations necessary to comply with federal law, federal regulations, or federal funding agreements.

The House Finance Committee Substitute exempts the following three categories of regulations from the provisions of the legislation that would allow the department to implement House Bill 33 without additional cost:

1. Regulations mandated by federal law as a condition for participating in or implementing a federally subsidized or assisted program, or for obtaining or maintaining state primacy in a federal program;
2. Regulations that address standards, requirements, or conditions for reimbursement by the designated state agency for services to be rendered on behalf of the designated state agency, that address amounts or rates of that reimbursement, or that adjust those amounts or rates to contain costs within the amount of appropriations from the legislature for a state fiscal year; and
3. Regulations that establish standards, requirements, or conditions for the eligibility of an individual for assistance under AS 18 or AS 47, or that establish standards for determining the amount of assistance that an eligible person is entitled to receive.

The department estimates that a large majority of its regulations will fall within one or more of these exempt categories. For regulations subject to the provisions of HB 33, the department believes it can complete the required analyses as part of its normal regulatory processes with existing resources and minimal delay.
